

LAWNWORLD

APPLICATION	MAIN FOOTBALL FIELD	PRACTICE FIELD
Early Spring		
Pre-emergency for crabgrass prevention with nitrogen fertilizer	\$375.00	\$300.00
Late Spring		
Pre-emergence for crabgrass prevention with nitrogen fertilizer and BLWC, and anti fungal treatment	\$935.75	\$375.00
Summer		
Nitrogen fertilizer with grub control insecticide, BLWC, and anti-fungal treatment	\$935.75	\$737.50
Late summer		
Fertilize with iron potassium, spray for nutsedge, BLWC, and anti-fungal treatment	\$935.75	\$750.00
Fall		
Slow release nitrogen and BLWC	\$492.50	\$375.00
Late fall		
Aeration, organic fertilizer, BLWC	\$1,280.50	\$975.00
Early winter		
Winter fertilizer for root growth	\$394.00	\$300.00
Total Cost	\$5,349.25	\$3,812.50

Overseeding

Cost of seeding cannot be determined until after evaluating the field conditions after each season. Under normal conditions the cost should be between \$1,200.00 and \$1,500.00 for both fields.
