

September Maint. Report

Happenings:

- Activity Center has new electronic door access set up Mr. Bales has been trained on how to schedule and set up the system for activities
- New high school main entrance door access system is up and running
- Buttoned up several small items with the new addition the first couple days of school
- Finished up installation of heat pumps at the K6. (We had one go down the first days of school it is on order)
- Get furniture all moved around and put together
- Set up a new cross country course
- Fire resistant spray all curtains in classrooms at K6

Looking forward:

- Finish landscaping in front of new addition at HS and installing the 3 benches
- Gathering prices on a side by side as the current Kubota is inoperable
- Build retaining wall on visitors side of athletic complex in front of north light pole as soon as football is over
- Set up for homecoming and band day all in the last week of the month
- Installation of heat pump in Rm 468 at K6
