

Academic Intervention Time (AIT) is our built in daily intervention time for students to receive additional academic assistance. This will happen for students in grades 7-12 on all regularly scheduled school days. Students that have a silver and bronze status will not be able to have their phones and other personal devices to use so that they are able to focus on their academics.

All students have an opportunity to earn a gold status if they meet the requirements during each cycle (approximately every two weeks).

Students are expected to report to their groups based on the number of missing assignments, grades in current courses, disciplinary violations, and ISASP scores to get additional help in their area of need. Groups may change every two week cycle.

In the event students do not attend their required sessions with their assigned instructor, they will be subject to discipline according to the handbook.

Juniors and Seniors will have the option to utilize their earned "Open Campus" status during this time if they have gold status. The criteria for each level is listed below and is subject to change by administration if needed.

Leveled Groups		
Gold	Silver	Bronze
All classes are being passed with a minimum grade of a C-.	Student has one or more D's or F's.	Student has two F's, 3 D's or multiple missing assessments.
